MOVIE PROGRAM

1. Beginning 21 July 1964, a series of motion picture films will be shown in the sixth floor Main Briefing Room covering subjects and areas of current interest. If this program proves to be popular, new schedules for subsequent showings will be arranged. If the Main Briefing Room is required for higher priority activities, changes in the schedule will be announced.

2. Showings will begin promptly at 12 o'clock and normally will run for about 30 minutes. Films with longer running time will be divided and shown on two days of the same week.

3. Supervisors are encouraged to make arrangements which will permit employees to take advantage of the movie program but cause the least disturbance to priority work and office routines. While formal records need not be kept, employees who are away from their duties significantly longer than the normal time used for the lunch period will be expected to make up the time.

4. The first two movies of the program are as follows:
